

## LITTLE BITTIES COLORING BLOCK TUTORIAL

### MATERIALS

- Cutting mat
- Rotary blade or x-acto knife
- Coloring pencils, markers, or crayons
- Two 2 inch square wooden blocks (can be purchased online or your local craft store)
- Glue stick
- Scissors

### TUTORIAL

1. Print off the 8.5 in x 11 in. printable pdf provided in your downloadable zip.
2. You can either choose to color it before printing OR you can color it once they are adhered to the blocks. The second option is best if you are making it as a gift or an activity for your little one.
3. Using the scissors, cut a little outside of the lines of each box. You do not need to be precise about cutting them on the lines.
4. Glue one piece (i.e. the head of the mermaid) by placing glue on one surface of THE BLOCK. Place the mermaid head as centered as possible on the glued area of the block.
5. Lay the glued head piece FLAT on the surface of the mat (this will make the paper stick flatter to the surface of the block). Then use the rotary blade or x-acto knife to trim all the edges of the off the block.

6. Repeat Step 5 with all the surfaces of the block keeping all the heads on one block and all the bodies on another block.
7. All done! Color it if you haven't already or wrap it up with coloring utensils as a gift!

If you take a picture of your awesome creation,  
be sure to post it on our social media!
